**Course Description:**

This course is designed for educators participating in the National Board for Professional Teaching Standards (NBPTS) assessment process. The focus of the course is on developing accomplished teaching for student learning in relation to the National Board standards. Through the course, participants will understand and internalize the Five Core Propositions of the NBPTS as the foundation of National Board Certification and National Board standards. Participants will also develop proficiency in using evidence to document accomplished practice to meet NBPTS standards. There will be a focus on writing in order to develop proficiency in writing descriptively, analytically, and reflectively to communicate accomplished practice to meet NBPTS standards. Educators will be provided information and experiences that will aide in the understanding of the structure and purpose of the NBPTS assessment center exercises. Additionally there will be time devoted to the examination and exploration of next steps after National Board Certification. The goal of the course is to support candidates through the National Board assessment process. Course participants submit two National Board portfolio entries as part of the course requirements for feedback prior to submission to the National Board.
